and share these comics (but not to sell them). More details..

### [xkcd: Aviation Firsts](#)

Randall Munroe's earlier book "What If..." was a really, really, good read which gave me the impression that this one would just as good. However, I think this book was the author's personal exercise at word wizardry using "common" words which, at times, made the book cumbersome to read or comprehend.

The phrase "lethal dose of neutrino radiation" is a weird one. I had to turn it over in my head a few times after I heard it. If you're not a physics person, it might not sound odd to you, so here's a little context for why it's such a surprising idea: Neutrinos are ghostly particles that barely ...
